An individual who is hard-working, works well with others, very motivated and driven in my work. I have excellent communication skills and bring a sense of confidence to my work too. I have a passion for and excel in specific fields, mainly video editing and even web design too. I'm hoping to have a career involving video editing in the future and feel I'd greatly excel in it.

SKILLS & IT SKILLS

Teamwork: I can work well with others and help out when they need assistance, I worked with others during work experience and I've done many group projects in college.

Willingness to learn: I have improved on many programs and skills that I use in college, I've done more photography, video editing and filming over different breaks.

Adaptability: I can adapt to many situations thrown at me. I work well under pressure; I try and assess and persevere through setbacks. I will try and learn how to use and get a basic feel for new programs/equipment.

Technical skills: I have learned about many programs throughout my education. I have become quite proficient with many programs such as:

- Microsoft word/ PowerPoint
- Adobe Photoshop/ Illustrator/ Dreamweaver/ Premiere Pro
- Use both Windows and Mac operating system

INTERESTS

My interests are video editing, film making, photography, films, video games, Lego and designing and building creations, painting and modifying collectables and figurines.
